VERSATILE POWER VENT DESIGN
• All models feature an exclusive 3-position rotatable blower outlet which adds flexibility.
• Combined horizontal and vertical vent runs up to 180 equivalent feet with 4” diameter venting (ABS, PVC, CPVC and polypropylene).
• All models are equipped with a protected sensor that detects the presence of flammable vapors and automatically disables the burner to prevent ignition.
• Air intake snorkel elevates the inlet location of combustion air to prevent flammable vapors from entering the sealed combustion chamber.
• Reduced NOx emissions comply with air quality management district regulations.

ENERGY STAR® QUALIFIED
• All models (except PVG62-75T76-NV) meet the ENERGY STAR® requirement and may also qualify for local utility and rebate programs.
• Built-in heat traps on the water inlet and outlet reduce the amount of heat lost through piping.
• “Environmentally-Friendly” foam insulation reduces the amount of heat loss and contributes to overall energy efficiency.

DYNACLEAN™ DIFFUSER DIP TUBE
• Reduces lime and sediment buildup and maximizes hot water output. Made from long-lasting PEX cross-linked polymer.

HOT-SURFACE IGNITOR
• More robust and reliable than standing pilot, and reduces energy consumption.

BLUE DIAMOND® GLASS COATING
• Provides superior corrosion resistance compared to industry standard glass lining.

USER-FRIENDLY
• State-of-the-art electronic gas control provides more precise temperature control.
• LED control light displays operation status and diagnostics information

ENHANCED-FLOW BRASS DRAIN VALVE
• Our residential water heaters have a solid brass, tamper resistant, enhanced-flow, ball type, drain valve.
• Uses a standard female hose fitting that allows for fast and easy draining during maintenance.
• Designed for easy operation, this valve includes an integral screwdriver slot that features a ¼ turn (open/close) radius, which not only permits full straight-through water flow but also a quick and positive shut off.

AVAILABLE IN NATURAL GAS AND PROPANE

DESIGN-CERTIFIED BY CSA INTERNATIONAL
• Certified at 150 psi working pressure.
• Certified to ANSI Z21.10.1 - CSA 4.1 or ANSI A21.10.3 - CSA 4.3 standards governing storage tank-type water heaters

6-YEAR LIMITED TANK AND PARTS WARRANTY
• For complete information, consult written warranty or go to americanwaterheater.com.

For complete warranty information consult the written warranty of American Water Heaters found at: www.americanwaterheater.com or call (800) 999-9515 | Copyright © by American ® Water Heaters August 2019. All rights reserved.
No option available for top T&P.

Models PVG62-50S62-NVS and PVG62-75T76-NV come from the factory standard with side loop fittings.

Natural gas models cited are series 200/210. Propane models are series 201/211. For propane models, change “N” to “L” in model number.

All models certified from sea level to 10,100 ft.

† PVG62-75T76-NV is not ENERGY STAR® Qualified.

Optional side loop fittings are available on 50,000 Btu input models, add “L” to the suffix (example: PVG 62-50T50-NVSL).
